

Snow's Fuel Company
18 Main Street, Lower Level
Orleans, MA 02653

HERE'S HOW IT WORKS:

1

Your tank is inspected at the time of your annual tune-up. Multiple test scores are taken and the lowest ultrasonic reading is recorded.

2

Information about your tank's ultrasonic reading is entered into our state-of-the-art database. Snow's Fuel Company monitors readings annually.

3

Receive up to **\$1,500** to replace your tank when needed.

Conditions of the Program

Snow's Fuel TankSure Program provides, among other benefits, a tank testing service and the TankSure Program Limited Payment. An ultrasonic tank test will be performed by our technician before your tank can be accepted for enrollment for the TankSure Program. While we cannot guarantee the prevention of a leak or other failure of your tank, we are providing these new services with the hope that by testing and monitoring, we are offering a long-term proactive tank replacement program for our customers. We recommend that an annual test of your fuel tank be performed. If a tank leak occurs due to corrosion once you are on the program, if tank leak occurs due to a manufacturer's defect, or if a non-leaking tank is identified for proactive replacement by the TankSure Tank Analysis Software, Snow's Fuel Company will cover up to **\$1,500** toward the replacement of your tank in accordance with the terms of the TankSure Program Limited Payment. This Agreement is renewed automatically each year. Upon termination for any reason, there shall be no refunds or credits allowed. This Agreement is not in force if the Customer's account is delinquent or if the Customer is not a current heating oil customer. The tank inspection and ultrasonic testing shall be done in conjunction with the Customer's regularly scheduled heating system tune-up. Special tanks or special installation circumstances may result in an additional charge.

Snow's Fuel TankSure Program

Your fuel tank can now be inspected and tested with Snow's Fuel TankSure Program

Snow's Fuel Service Just Got Better!

At Snow's Fuel Company, we deliver more than oil and 24-hour services—we deliver satisfaction. Whether we're selling you a product or servicing your equipment, we never do anything that's not in your best interest. Our honest, responsive approach has helped us build valued relationships with some of the nation's top product dealers and, more importantly, with our customers.

Snow's Fuel now offers a proactive approach with dealing with aboveground oil tanks. Snow's Fuel TankSure Program will now ultrasonically test your oil tank at the time of your first annual maintenance. If your tank qualifies, we will provide you with a **\$1,500** Tank Replacement Payment Credit to be used when your tank needs to be replaced*. If your tank does not qualify, we will provide you with an IMMEDIATE \$200 credit to upgrade your oil tank.

Snow's Fuel TankSure Program renews annually for only \$69. If you have any questions, please let us know.

Thank you for your business and choosing Snow's Fuel Company.

Jorge Castillejo
General Manager
Snow's Fuel Company

*Please see conditions of the TankSure Program on reverse side.

Qualifying tanks receive a **\$1,500** Tank Replacement Payment Credit to help cover the cost of a replacement.
Non-qualifying tanks receive a \$200 replacement credit for immediate oil tank replacement.

Using EPA-approved testing technology, ultrasonic equipment detects the level of corrosion inside oil tanks.

This service helps protect your home. Proactive replacement can help avoid costly remediation expenses. Included is an inspection of common tank components such as legs, seams, fill and vent pipes, oil lines, and vent whistle.

The Tank Inspection Certificate documents your tank's test and inspection (available upon request).

- Customer must be enrolled in automatic delivery and account payments must be current.
- TankSure® Tank Replacement Payment details are available in the Tank Replacement Certificate.

Before your scheduled maintenance, please remove all items from the area surrounding your oil burner and tank. The entire heating system including tank must be accessible for our technicians. Enrollment in the TankSure Program is contingent upon the customer's tank passing an initial ultrasonic and visual inspection. While we cannot guarantee the prevention of a leak or other failure of your tank, we are providing this new service with the hope that by testing and monitoring, we can offer a long-term proactive replacement program for our customers.
