What's Inside:

- A Note from Snow's
- Meet Our Team
- Generator Installation Savings
- Air Conditioning System Discounts
- Info about Clean, Versatile Propane—Not Just for Winter!
- NEW! Snow's Plumbing Services

Snow's 
Fuel Company

Thank You for Choosing Snow's!

After a challenging winter for our community in 2015, we welcomed this heating season's warmer weather with open arms. Throughout, we were glad to see customers happy with milder temperatures and low fuel prices; both factors made winter expenses decrease substantially for homeowners in our area.

To ensure all Snow's customers were able to take advantage of the lower fuel prices, we were pleased to adjust budget plan payments at the end of the season. As always, we will do our absolute best to secure fuel supplies and provide you with the best pricing plans available each year.

Our service department continues to expand with more talent and service offerings. The addition of full plumbing service now allows Snow's to take care of your heating, cooling, generator, and plumbing needs. We are proud to be your one-stop shop for complete home comfort services.

Spring is here, and summer is just around the corner. Keep in mind your change in energy needs for warmer weather: air conditioning for your indoor comfort, propane to fuel outdoor living appliances like pool heaters and grills, and whatever else may help to make your summer more comfortable and relaxing.

Thank you for your loyalty to Snow's throughout the seasons. We wish you a very enjoyable Cape Cod summer with your family and friends.

Sincerely,
Sid Snow, President
Jorge Castillejo, General Manager

Meet Our Team

Scott Santos

Driver and Apprentice Technician

Scott's level of commitment to Snow's and our customers is undoubted. He's eager to be involved with many aspects of the company, currently delivering fuel and gaining know-how to service all types of equipment. Scott was previously with Snow's for many years, and we are happy to welcome him back to our family.

Dan Grozier

Apprentice Technician

Join us in welcoming one of the newest members of the Snow's team! Dan is busy learning all technical aspects of the business, quickly picking up new skills and experience. As a younger member of the crew, he brings a fresh dynamic to our company, and we look forward to his success with Snow's.

SAVE \$250

off the installation of a new
Generac generator

Must be installed by Snow's Fuel Company. Signed agreement must be completed by 8/31/16.

COUPON CODE: GENERACSNL

More Power to You!

When a storm hits, benefit from greater comfort, security, and convenience with a residential generator. Trust that your lights, backup heaters, refrigerators, and other important home appliances are ready for use during a power outage. A built-to-last Generac® generator installed by a Snow's professional will keep your home up and running without interruption.

- ✓ Count on durable, long-lasting Generac equipment
- ✓ Use necessary home appliances like heating sources, air conditioners, lights, refrigerators, and most electrical appliances when your power is out
- ✓ Rely on Snow's for complete installation and subsequent service—including annual maintenance plan options

Call our office for a FREE estimate or to schedule your installation!

Play It Cool This Summer

Getting ready to haul your window air conditioning units out of storage for the warmer weather ahead? Choose an easier and more energy-efficient way to cool your home this summer.

Ductless mini-split systems are becoming popular alternatives to conventional window air conditioners and central A/C systems. Why? These sleek and compact units allow for more precise room-by-room zoning than central air, and they do away with the need to put in and take out the equipment between seasons—unlike window units.

- ✓ Enjoy the same comfort as central air conditioning at a fraction of the cost
- ✓ If your home currently lacks ductwork, there is no need to add it
- ✓ Many mini-splits are also capable of producing heat, making for an excellent secondary heat source in the winter or a primary one when temperatures are mild

Learn more about ductless mini-splits by giving our office a call!

Propane: For Your Indoor and Outdoor Energy Needs

Whether you heat with propane, use it solely for home appliances, or count on the fuel as your complete home energy source, we've got you covered. Snow's offers delivery and service for all of your propane needs.

The Many Uses of Propane

- Whole-home heating
- Water heating
- Cooking
- Fireplace inserts and indoor space heating
- Clothes drying
- Powering generators
- Pool heating and fire pits
- Grilling
- Outdoor lighting and space heating

Thinking of converting to a propane heating system? Interested in learning more about what propane can do for your outdoor entertaining this summer? Give us a call!
