STRAIGHT TALK & TIPS FOR SNOW'S CUSTOMERS

WHAT'S INSIDE:

- A Message from Our Management Team
- Transform Your Outdoor Living Space with Snow's
- Propane vs. Natural Gas: Which Is Right for You?
- Planning Upgrades for Your Home This Year?
- Save on Your Upgrades with a Special Offer

Dear Friends and Neighbors,

Spring has sprung on Cape Cod! After a long winter, we at Snow's Fuel Company think there's nothing better than getting outside to enjoy warmer temperatures and fresh blooms. This change in seasons reminds us not to take what we have for granted, and we're so grateful that you continue to trust our family-owned and operated business with your home comfort.

To that end, we're proud to provide diversified services that help us to better serve our customers, no matter what their energy needs are. From fuel delivery to HVAC services, plumbing, and electric, we really do it all! In this newsletter, you'll see how we can help you transform your outdoor living space with these services to better enjoy the spring and summer. Additionally, if you're considering converting to gas, we can help you decide whether propane or natural gas would be the better choice for your home's unique needs.

Also included in this newsletter is a special offer to help you save on your next HVAC installation with us, but hurry, because this deal is only available for a limited time! And finally, a reminder that we host regular raffles on our social media pages, so keep an eye out for those.

You can rely on Snow's to help keep your home comfortable no matter the time of year. Get in touch with us online or by phone at (508) 255-1090 with any questions or concerns, or to book your next fuel delivery or service appointment.

Wishing you all the best this spring,

Harrison Snow & Nick Lombardozzi

OUR MANAGEMENT TEAM

Harrison Snow

President of Snow's Fuel

Nick Lombardozzi

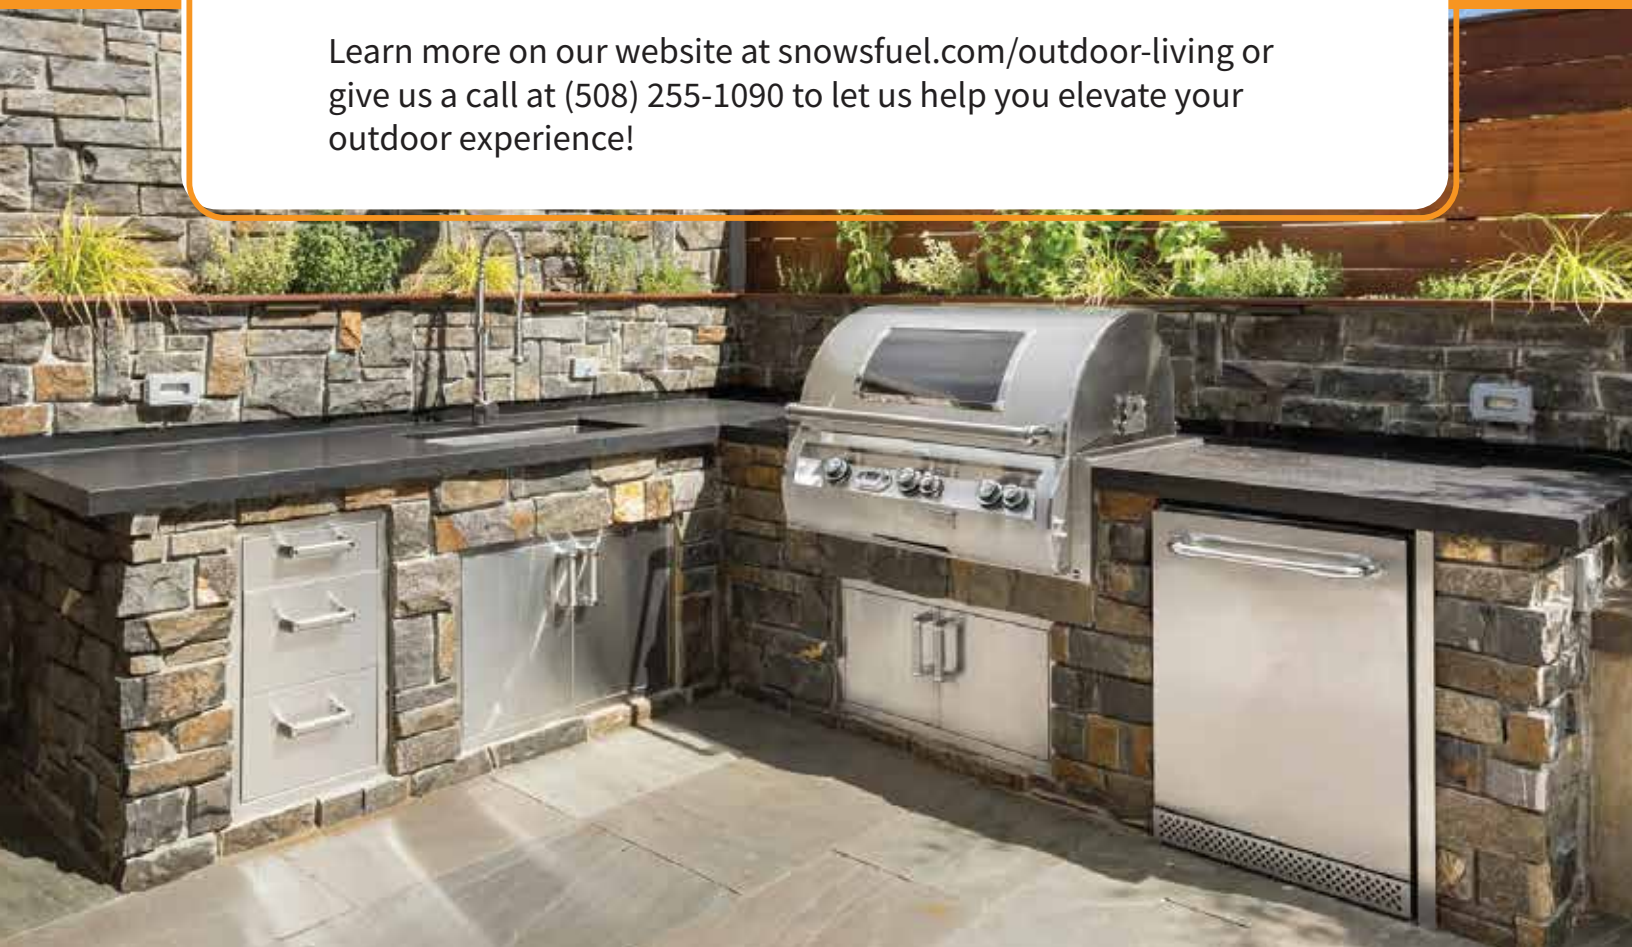

General Manager of Snow's Fuel

PROPANE VS. NATURAL GAS: WHICH IS RIGHT FOR YOU?

Are you considering converting your home or business on Cape Cod to natural gas? Before you take the leap, there are some serious factors to consider:

Availability of Equipment Service:

Snow's is unique in that we provide installations and service for both propane and natural gas equipment, but not every company does! This means service may not be available when you need it most.

Inconvenience:

When you become a natural gas customer, you'll have to convert more than just your heating system. You'll also have to convert all your appliances or invest in brand-new equipment instead of using your existing propane equipment or installing high-efficiency appliances.

Safety:

In September 2018, thousands of Merrimack County residents were evacuated from their homes due to natural gas explosions. Meanwhile, propane is highly regulated by national regulatory agencies to ensure safe operation.

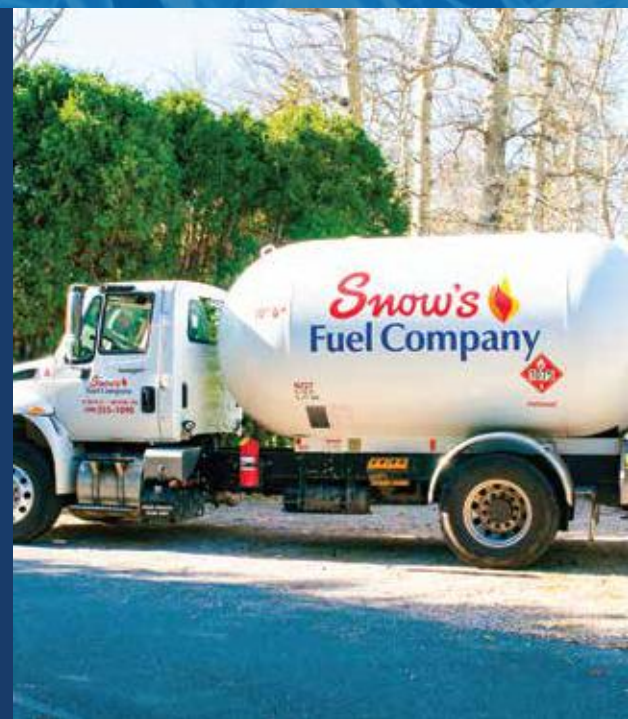

Customer Service:

Natural gas utility service is a large-scale business that handles customer service from major call centers, which means you won't be dealing with a local customer service representative like the ones at Snow's Fuel.

PROPANE OR NATURAL GAS? AT SNOW'S, WE DO IT ALL!

Sign up for reliable propane delivery from a local company you can trust! Plus, as a propane customer, you'll enjoy all the perks of working with a full-service energy provider, like flexible budget plans, professional HVAC service, friendly customer service, and so much more.

If you do want to convert to natural gas, we do that, too! We're proud to provide expert natural gas equipment installations and service.

PLANNING UPGRADES FOR YOUR HOME THIS YEAR?

The experienced HVAC technicians, plumbers, and electricians at Snow's Fuel can help! Give us your wish list for a no-obligation estimate.

SAVE ON YOUR UPGRADES!
