STRAIGHT TALK & TIPS FOR SNOW'S CUSTOMERS

Snow's 
Fuel Company

WHAT'S INSIDE:

- How to Tell if You Need a New Heating System
- Thinking About Switching Fuel Types?
- Nominate Someone to Our Community Spotlight Program
- Schedule Your Heating System Tune-Up
- Be Ready before the Lights Go Out with a Generac® Generator

Follow us on social media to keep up with our regular giveaways!

To Our Neighbors and Friends,

As cooler days and nights approach, our team is already turning its attention to the season ahead.

We spent the warmer months handling everything from A/C service calls to electrical upgrades, and we're already gearing up for what's next: fuel deliveries, heating tune-ups, and all the little things that keep Cape Cod homes running smoothly through the colder months.

This issue has a bit of everything, including signs it might be time for a new heating system, what to know about service plans, info on switching to propane or natural gas, and learning how to nominate impactful individuals to our Community Spotlight program.

We're grateful for the trust you place in us, season after season. We know winter can bring its share of uncertainty, and we want our oil customers to know we're in your corner. We'll do everything we can to keep your deliveries on track and your home warm.

As always, give us a call or drop by our website if we can help with anything.

Harrison Snow & Nick Lombardozzi

Spotlighting the *People* Who **MAKE THE CAPE FEEL LIKE HOME**

Cape Cod is home to many people whose kindness, dedication, and service to our community deserve to be recognized, and that's why we're launching our new Community Spotlight program. Each season, we'll highlight an outstanding community member to share their story.

Do you know someone whose contributions deserve the spotlight? We want to hear from you! Nominate people you know in the community who stand out for their work and involvement with local organizations. Recipients will be featured in our newsletter, website, and digital platforms and will also receive a **Snow's Community Appreciation Gift Card** to use at Snow's Fuel or Snow's Home and Garden.

How to Nominate Someone

- 1 Fill out the nomination form on snowsfuel.com/community-spotlight/
- 2 Tell us why your nominee deserves to be recognized
- 3 Our team will review every nomination
- 4 We will select the Community Spotlight winner!

SCAN TO NOMINATE
SOMEONE TODAY!

Get ready to help us recognize the *remarkable people* who make our community special.

HOW TO TELL IF YOU NEED A NEW HEATING SYSTEM

Heating systems don't usually quit without warning; they tend to drop hints first. Knowing what to look for can help you plan ahead instead of getting caught off guard on the coldest day of the year.

A Few Signs It Might Be Time for an Upgrade:

Your system is
more than
15 to 20 years old

Your energy bills keep
climbing without obvious
changes in usage

You're scheduling
repairs more often
than usual

Some rooms feel
warmer or colder
than others

You hear unusual
noises when the
system kicks on

If any of these sound familiar, it's worth having a technician take a look. Our team can walk you through your options and help you find a system that fits your home and your budget.

Call us at **(508) 255-1090** or visit snowsfuel.com to schedule an evaluation.

BE READY BEFORE THE LIGHTS GO OUT

Install a Generac® Generator with Snow's Fuel

Winter storms on Cape Cod have a way of knocking out power at the worst possible moment. A Generac generator means you're ready for it, so the heat, the lights, and the fridge all stay running no matter what's happening outside.

Reach out to our experts for:

- ▶ Installation services
- ▶ Maintenance needs
- ▶ Comprehensive service plans

GENERAC

THE BENEFITS OF A HEATING SYSTEM TUNE-UP: WHAT YOU NEED TO KNOW

An annual tune-up keeps your system running efficiently and helps catch small problems before they become big ones. We offer service plans for oil, propane, and natural gas systems. Every plan includes:

- ✓ *An annual tune-up*
- ✓ *Priority service when you need it most*
- ✓ *Discounts on parts and repairs*

THINKING ABOUT SWITCHING FUELS?

Snow's offers installation and services for propane and natural gas!

Both fuels are efficient and reliable, and they can power your furnace, water heater, and even a whole-home generator. That kind of versatility means one fuel source can cover most of your home's needs.

Not sure which is right for your home?

We'll help you figure it out. Go to visit snowsfuel.com/propane-conversions/ to learn more.

BUNDLING HAS NEVER PAID OFF MORE
